

## Volunteer form for Survivorship

Survivorship counts on volunteers for a lot of the information and interrelated activities that are Survivorship's core mission and goals. The organization is run almost entirely by volunteers. Our members count on us to follow through with whatever we have offered as an organization, and in turn we count on our volunteers. This is true for whatever level of work you agree to undertake. We have small tasks as well as larger tasks that need your attention, also short term commitments sometimes work as well. If under any circumstances you cannot follow through we need you to let the appropriate person ( generally the volunteer coordinator ) know ASAP. In this way we can keep the organization functioning well. If you are willing to sign this form to show that you understand the commitment you are undertaking, then Survivorship can work with you as a volunteer. Thank you.
